

PORTSMOUTH HANDICAPPING SHEET

Convert elapsed times to decimal minutes. Apply formula below to compute corrected time.

FORMULA: $\frac{\text{Elapsed Time (ET)} \times 100}{\text{DPN}} = \text{Corrected Time}$

Examples of converting to dec.min: [57 min - 37 sec = 57.62 Minutes] *AND* [1 hr - 22 min - 42 sec = 82.70 minutes]
